

REMARKS

Applicant has carefully reviewed the Office Action dated July 21, 2004. Claims 1-24 are pending in this application. Applicant has cancelled Claims 1-24 and added claims 25-38 to more clearly point out the present inventive concept. Reconsideration and favorable action is respectfully requested.

Claims 1-24 stand rejected under 35 U.S.C. §102(e) as being anticipated by *Jalili*. This rejection is respectfully traversed with respect to the new claims.

Claim 25 recites a method including the steps of displaying a sequence of graphical images on a display device wherein each graphical image may be defined as an array of addresses such that each pixel of the graphical image may be identified by a corresponding address; recording an address corresponding to part of the information for each graphical image of the sequence of graphical images to form a sequence of addresses; transferring said sequence of addresses to a processor; processing each address of said sequence of addresses to generate said corresponding part of said information; and processing said parts of said information to generate said information.

Jalili discloses a system where a single graphical image is used to generate a sequence of icon locations. *Jalili* does not disclose the display of a sequence of graphical images, nor does *Jalili* disclose recording an address corresponding to part of the information for each graphical image. As such, Applicant respectfully requests that the rejection under 35 U.S.C. 102(e) over *Jalili* be withdrawn.

Applicant has now made an earnest attempt in order to place this case in condition for allowance. For the reasons stated above, Applicant respectfully requests full allowance of the claims as amended. Please charge any additional fees or deficiencies in fees or credit any overpayment to Deposit Account No. 20-0780/ATMD-26,276 of HOWISON & ARNOTT, L.L.P.

Respectfully submitted,
HOWISON & ARNOTT, L.L.P.
